

# **ARCHITECTURAL ENGINEERING**

## **Preston Forest Shopping Center Dallas, Texas**

**Architect:** Lemmons & Associates

**Completion Date:** 2001

**Building Use:** Retail Shopping Center

**Building Size:** Not Available

**Construction Cost:** Not Available

**Project Description:** Preston Forest Shopping Center is located at the well-known intersection of Preston Road and Forest Drive in Dallas, Texas. Structural Solutions, Inc. provided the structural engineering services required to prepare retrofit design to provide a new storefront and parapet walls for an existing shopping center. The design required the analysis and reinforcement of the existing structure to accommodate the design criteria of the new façade. Site observations performed by Structural Solutions, Inc. were required to assess the existing conditions and to retrieve pertinent design data.
